FEATURES

- Three anti-quality, moisture-proof, dust-proof, more anti-mosquito.
- The lampshade adopts embossed injection molding process to improve product texture and luminous uniformity.
- Metal bottom, with grounding design, product safety is more reliable.
- The decorative edge ring is made of ABS engineering plastic, which has good strength, high temperature resistance and deformation resistance.
- Diameter 13.5mm optical lens, more gentle light effect eye protection.

APPLICATION

- Corridor, basement, bathroom, etc.
